This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species I: Fig. 2;
Species II: Fig. 3;
Species III: Fig. 4;
Species IV: Fig. 9;
Species V: Fig. 10;
Species VI: Fig. 11;
Species VII: Fig. 12;
Species VIII: Figs. 13-17;
Species IX: Figs. 18-20;
Species X: Figs. 21 and 22;
Species XI: Fig. 23;
Species XII: Figs. 24 and 25;
Species XIII: Fig. 26;
Species XIV: Figs. 27-31;
Species XV: Figs. 32-34;
Species XVI: Figs. 35-37;
Species XVII: Figs. 38 and 39;
Species XVIII: Figs. 40 and 41;

Species XIX: Figs. 43-48;
Species XX: Figs. 49-51;
Species XXI: Fig. 66;
Species XXII: Figs. 67-78;
Species XXIII: Figs. 80-82; and
Species XXIV: Fig. 83.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

claim 2 - Species II
claim 3 - Species V

Art Unit: 3751

claim 4, 18 - Species VII
claim 6 - Species VIII
claim 7 - Species XV
claim 8-11 - Species XIX
claim 12-14 - Species XXII
claim 15 - Species XXIII
claim 16 - Species XXIV

The following claim(s) are generic: 1, 5, 17.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: A choice of three technical features appears to be recited in independent claim 1 and the dependent species claims are not restricted to a single technical feature.

Any inquiry concerning this communication should be directed to Robert M. Fetsuga at telephone number 571/272-4886 who can be most easily reached Monday through Thursday. The Office central fax number is 571/273-8300.
